EDUCATION

M.Sc. Statistics	University of British Columbia	2025–Present
B.Sc. Combined Honours, Mathematics and Statistics	University of British Columbia	2020–2025

SKILLS

Programming	Python (PyTorch, GPyTorch, NumPy), R (Tidyverse, ggplot2)
Tools & Software	L ^A T _E X, Git, GitHub, Linux/Unix Shell (HPC), Weights and Biases, Microsoft Office

WORK EXPERIENCE

Co-op Student <i>Health Canada</i> – Collaborated with a team of statisticians and field experts to provide statistical analysis of public health data.	May 2026 – Present
Junior Statistical Consultant <i>Applied Statistics and Data Science Group (ASDA)</i> – Worked with researchers across disciplines to provide advice on experimental design and statistical analysis.	Mar 2026 – Present
Graduate Teaching Assistant <i>UBC Department of Statistics (STAT 305, STAT 302)</i> – Held office hours, led weekly labs, and contributed to exam development across undergraduate courses.	Sep 2025 – Present
First Generation Student Mentor <i>University of British Columbia</i> – Provided academic guidance and professional development support to undergraduate students.	Jan 2026 – Apr 2026
Undergraduate Summer Research Assistant <i>UBC Department of Statistics, supervised by Prof. Geoff Pleiss</i> – Studied Gaussian processes and Bayesian Optimization using Python on Compute Canada HPC clusters.	May 2025 – Aug 2025
External Support Specialist Co-op <i>Chartered Professional Accountants of British Columbia</i> – Provided technical support to stakeholders and authored an internal troubleshooting wiki.	Sep 2023 – Aug 2024

PROJECTS

Pokémon Team Building Optimization <i>STAT 535C Class Project</i> – Applied black-box optimization techniques to discover strong Pokémon teams.	Link to Repo
Pandemic Simulation Experiment <i>STAT 404 Class Project</i> – Designed a simulation experiment to assess policy effectiveness in preventing disease spread.	Link to Repo
Mortgage vs. Rent Simulation <i>Personal Project</i> – Estimated long-term housing costs using Monte Carlo simulations and Vasicek/CIR interest rate models.	Link to Repo

AWARDS

Constance van Eeden Scholar Award	University of British Columbia	2025
NSERC Undergraduate Student Research Award (USRA)	University of British Columbia	2025
